

SOMETIMES, MISTAKES HAPPEN

A doctor writes the wrong dosage, a clerk transposes a digit or a technician pulls the wrong drug. Your final check catches almost all of these missteps and no one is hurt. But, you wonder if there is more you can do to make sure you never let an error cause harm to one of your patients.

Team up with APMS® PSO

As a member of the APMS® PSO, you can get a handle on the inherent risks in your pharmacy's workflow and discover opportunities for improvement in a legally protected environment.

APMS® PSO has been a federally listed Patient Safety Organization (PSO) since 2008 and works with thousands of independent and chain pharmacies to improve pharmacy workflow, increase quality of patient care, and reduce risk.

PQC+™ is brought to you by your State Pharmacy Association

OUR PRODUCT

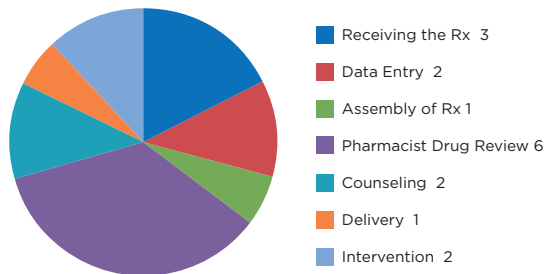

The Pharmacy Quality Commitment (PQC+)[™] program makes it easy for pharmacies to learn from past mistakes, adopt best practices, and share lessons learned with participating pharmacies in a safe environment. PQC+[™] can help you satisfy the Quality Assurance requirements found in third party, Medicaid and Medicare contracts, and state regulations.

PQC+ FEATURES

PQC+[™] gives you a broad overview of the strengths and weaknesses in your pharmacy workflow and practical advice on how to improve:

- ✓ Resources and training
- ✓ Unique ultra-secure reporting portal
- ✓ Proof of using a continuous quality improvement program
- ✓ Patient Safety Expert consults

VISUALLY REVIEW DISCOVERED QRES

Easily spot trends with our charts and graphs to make analyzing your data fast and efficient.

WHY WORK WITH A PSO?

You are watching out for your patients, *let us watch out for you*. Boards of Pharmacy in 14 states, accreditation and credentialing programs, and network contracts require pharmacies to have a quality improvement program. Unfortunately, state peer review protection is often weak or non-existent, potentially putting your pharmacy at legal risk. The Alliance for Patient Medication Safety (APMS) is a federally listed Patient Safety Organization (PSO), which allows our pharmacy members to participate in a continuous quality improvement program in a legally safe environment. Participating pharmacy members can track and study patient safety data without fear of exposure.

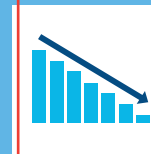

WHAT CAN PQC+[™] DO FOR YOU?
